

Birthright™

By  **RALCO**
STRONG ANIMALS

Birthright™ is the gold standard baby pig milk replacer that decreases mortality, increases average weaning weights and improves gut health.

Helps Overcome:

-  Litter size
-  Competition
-  Immune challenges
-  Inadequate milk production

What's Inside:

PATENTED
microfused® essential oils

Reduce pathogen load, oxidative stress and promote health of stressed pigs while stimulating appetite.

ACTIFIBE® PREBIOTIC

Feed beneficial gut bacteria and promote immune function.

LIFE ADVANTAGE PROTEIN

Promote digestion through slow release proteins which help reduce the incidence of scours.

Recommended Use:

Mix 150g of Birthright Milk Powder with 0.85 liter.
See tag for full directions for use.

Non-animal protein formulation available.
Sold in 20kg bags.

The Difference

Birthright is powered by technologies that make it the most effective baby pig milk replacer.

Patented **Microfused Essential Oils** have smaller, more uniform droplets that stay stable over time and temperature. Protected droplets get where they are needed to facilitate and maintain intimate contact.

Competitor Oil:

Larger oil droplets in competitive oil products coalesce and become unstable

Microfused Essential Oils:

20 times greater surface area; 100 drops per 1 drop of competitor

Control

Microfused Essential Oils

These micrographs demonstrate the increased strength of the villi, which directly contributes to greater nutrient uptake.

Beneficial bacteria multiply when they feed on **Actifibe** crowding out pathogens for improved health and performance.

Actifibe Promotes Beneficial Bacteria

Research conducted by Purdue University

Clotting and non-clotting proteins in proprietary **Life Advantage** technology allow baby pigs to absorb more nutrients for increased average daily gain.

Life Advantage Technology Promotes Weaning Weight
